

PIN LIGHT (Monochromatic)

art. 1605

Short description

PIN LIGHT is our new compact ULTRA NARROW LED SPOT designed to create dramatic lighting effects on facades and architectural surfaces.

It is equipped with an ultra-narrow 1.5° optics for accurate and detailed projection on surfaces to create spectacular effects of great impact.

Suitable for outdoor installations thanks to IP65 rating protection.

Is available with 1 monochromatic LED (warm white, neutral white, cool white, red, green, blue or amber).

- Standard fixture colour finishing is gray. Optional black and white (art. FX-COLOUR).
