

## PIN LIGHT (Monochromatic)

art. 1605

### Short description

---

PIN LIGHT is our new compact ULTRA NARROW LED SPOT designed to create dramatic lighting effects on facades and architectural surfaces.

It is equipped with an ultra-narrow 1.5° optics for accurate and detailed projection on surfaces to create spectacular effects of great impact.

Suitable for outdoor installations thanks to IP65 rating protection.

Is available with 1 monochromatic LED (warm white, neutral white, cool white, red, green, blue or amber).

- Standard fixture colour finishing is gray. Optional black and white (art. FX-COLOUR).
