

CL 160WR (high bay)

art. 1420

Short description

The CL 160WR and CL 120WL are new IP67 monochromatic LED lighting high bay fixtures, ideal for applications where robustness, reliability and the energy saving issues are mandatory. CL 160WR is equipped with high brightness white LEDs (warm, neutral and cold), combined with an innovative optic system with antiglare reflectors.

Easily adaptable for applications such as sports complex, industrial warehouses, commercial malls, and canopy stations.

As an option DALI controller and integrated movement detectors for extra energy saving.

- Standard fixture colour finishing is grey. Optional black and white (art. FX-COLOUR).

Description

- SOURCE

n. 160 (5W) White LEDs

Total light power: 400W

Total out lumen: 50000lm

CRI 85

LEDs life time 50000 hours

- OPTIC

70°x55°;

- CONNECTIONS

Main Power: 3x1mm cable 1,5mt.

CL 160WR (high bay)

On request DIMMABLE version

- DALI controller
- DMX controller
- Wireless DMX receiver
- Integrated movement detectors for extra energy saving

• RATING PROTECTION

IP 67

• POWER SUPPLY

Voltage range: 88-264VAC, 124-370VDC

Frequency range: 47-63Hz

Active Power factor: PF>0.95/230VAC, PF>0.98/115VAC

Current: 1.8A@230VAC;

Fuse inside Power Supply

Power consumption: 450W

• PHYSICAL

WxDxH: 651x167x537 mm

Weight: 25 Kg.
